

Enlit Europe 2025: Comprehensive Pre-Event Strategy for Octopus Energy Finance							
Objective: To maximize ROI from Enlit Europe 2025 by securing high-quality leads, building strategic partnerships, and solidifying Octopus Energy Finance's position as a leading, dynamic capital partner in the European market.							
Key Event Details:							
When: 18-20 November 2025							
Where: Bilbao, Spain							
1. List of Potential Companies to Meet							
This list prioritizes companies based on their project pipeline, strategic alignment with Octopus's focus areas, and presence in key European markets.							
Company Name	Sector	Location	Priority Level	Why Relevant	Decision-Makers to Target		
Iberdrola	Utility / Renewable Developer	Spain (Global)	High	European leader with massive renewables pipeline; ideal for portfolio-level financing and co-investment.	Head of Project Finance, M&A Director		
Acciona Energía	Renewable Developer / EPC	Spain (Global)	High	Pure-play renewables leader; strong pipeline in solar, wind, and green H2 in our key geographic focus.	CFO, Director of Business Development		
BayWa r.e.	Renewable Developer / Service Provider	Germany (Global)	High	Active developer with significant project flow in solar, wind, and BESS across Europe; perfect for our mid-market focus.	Global Head of Project Finance, Director of Business Development		
Enel Green Power	Utility / Renewable Developer	Italy (Global)	High	Global renewables leader with aggressive expansion plans; potential for acquisition financing and JVs.	Head of Investment, M&A Director		
RWE	Utility / Renewable Developer	Germany (Global)	High	Major European utility rapidly expanding renewables; requires large-scale capital aligned with our capabilities.	Director of Project Finance, Head of M&A (Renewables)		
Statkraft	Utility / Renewable Developer	Norway (Europe)	High	Europe's largest renewable generator; key partner for financing new wind, solar, and grid stability projects.	SVP Project Finance, Director of Business Development		
EDP Renewables	Renewable Developer	Portugal (Global)	High	Top global wind and solar producer with ongoing capital needs for its growth trajectory.	Global Head of Finance, M&A Director		
Schneider Electric	Digital Grid / Equipment	France (Global)	High	Strategic partner for financing smart grid and digital infrastructure projects; enhances our grid modernization focus.	VP of Grid Solutions, Chief Digital Officer		
Matrix Renewables	Renewable Developer	Spain (Global)	Medium	TPG-backed platform focused on solar and storage in Spain & Italy; ideal for development and construction financing.	Managing Director, Head of Project Finance		
Northvolt	Battery Manufacturer	Sweden (Global)	Medium	Leading battery player; crucial for understanding storage supply chain and financing projects using their technology.	VP of Strategic Partnerships, CFO		
Amprion / REE	Grid Operator (TSO)	Germany / Spain	Medium	Key TSOs driving grid modernization; provide insights on future investment hotspots and grid-enhancing tech.	Head of Innovation, Investment Director		
Siemens Energy	Equipment Manufacturer / EPC	Germany (Global)	Medium	Key player in grid tech and hydrogen electrolyzers; partnership potential for financed projects using their tech.	Head of Energy Finance, Head of Hydrogen Solutions		
Fluence	Energy Storage Tech	USA (Global)	Medium	Major storage system integrator; gateway to a network of storage project owners seeking financing.	Chief Commercial Officer, Head of Sales (EMEA)		
Shell Energy	Utility / Trader / Developer	UK (Global)	Medium	Active in PPA markets and building its own renewables portfolio; potential for structured financing deals.	Global Head of Renewable Deals, M&A Director		

Repsol	Oil & Gas / Renewable Developer	Spain (Global)	Medium	Major Spanish company with a growing low-carbon division; target for financing their energy transition projects.	Director of Low-Carbon Generation, Head of Investment		
European Energy	Renewable Developer / PPA	Denmark (Global)	Medium	Developer and IPP with strong focus on solar and Power-to-X; requires capital for expansive pipeline.	CEO, Head of Project Finance		
Alfen	Equipment Manufacturer (Storage, EV)	Netherlands	Medium	Specialist in smart grid and storage; potential for financing behind-the-meter and grid-scale storage projects.	Head of Business Development, Commercial Director		
Cubico Sustainable Investments	Renewable Investor/Developer	UK (Global)	Low	Potential for joint bids or secondary acquisitions in our core markets and technologies.	Director of Acquisitions, Head of European Operations		
2. Most Relevant Sessions & Presentations							
Focus on sessions covering financing mechanisms, market trends, and the technologies Octopus is prioritizing.							
Session Title	Day/Time	Why Attend	Key Speakers	Expected Attendees	Action Plan		
Financing the European Energy Transition	Day 1 (AM)	Core topic. Understand new de-risking models and competitor approaches to stay ahead.	EU Commission, EIB, Institutional Investors	Project Developers, Financiers, Policymakers	Q: "How can financiers better de-risk first-of-a-kind tech like multi-day storage?" Follow-up: Connect with panelists to discuss Octopus's flexible approach.		
The Spanish Solar & Storage Boom	Day 1 (PM)	Directly relevant to geographic focus. Identify key Spanish market players and financing challenges.	Iberdrola, Acciona, Spanish Ministry	Spanish Developers, EPCs, Tech Providers	Q: "What is the single biggest financing bottleneck for >1GW pipeline in Spain?" Follow-up: Schedule meetings with developer speakers.		
Hydrogen: From Pilot to Project Finance	Day 2 (AM)	Critical for assessing the bankability of hydrogen projects, a key growth area.	Shell, Siemens Energy, Enagás	H2 Developers, EPCs, Offtakers, Financiers	Q: "What revenue stacking models are proving most attractive to lenders?" Follow-up: Identify 2-3 advanced H2 projects for due diligence.		
Grid Modernisation	Day 2 (PM)	Aligns with grid infrastructure financing focus. Unlock partnerships with TSOs and tech firms.	Amprion, REE, Schneider Electric	TSOs, Grid Tech Firms, Regulators	Q: "Which grid-enhancing technologies offer the best risk/return profile for private capital?" Follow-up: Connect with TSO innovation leads.		
The Future of Merchant Risk & PPAs	Day 3 (AM)	Core to Octopus's flexible financing structures. Understand evolving risk appetite in the market.	Statkraft, Corporate Offtaker, Risk Analyst	Developers, Traders, Corporates, Lawyers	Q: "How are financiers adapting models for merchant tail risk post-PPA?" Follow-up: Discuss PPA trends with speakers.		
Battery Storage: Beyond Frequency Response	Day 1 or 2	Deep dive into storage revenue models, a key investment area for our mid-market focus.	BayWa r.e., Alfen, Analytics Firm	Storage Developers, System Integrators	Q: "What is the minimum contract duration required to finance merchant storage today?" Follow-up: Network with developers during coffee break.		
Utility Partnerships: Co-investing in the Transition	Day 2	Identify partnership and co-investment opportunities with major utilities.	RWE, EDP, Enel	Utility BD & M&A Teams	Q: "What do utilities look for in a financial partner for JV projects?" Follow-up: Introduce Octopus's partnership model to utility reps.		
Digitalisation & AI: The New Drivers of Project ROI	Day 3	Understand technology that can enhance asset performance and improve our investment returns.	Tech Startups, Utility Digital Lead	Innovators, Asset Managers, VCs	Q: "Which digital tools provide the most significant uplift in project bankability?" Follow-up: Scout for potential tech investments.		
3. Organic Marketing Activation Plan							
These ideas are designed to position Octopus Energy Finance as a dynamic, knowledgeable, and approachable capital partner.							
Activation Idea	Brief Description	Target Audience	Expected Outcomes	Resource Requirements	Timeline		
The Financing Bar	A high-end bar at our booth (coffee/smoothies AM, Spanish wine/vermouth PM). An invitation to "discuss your deal over a drink."	Project Developers, C-Suite	High-quality conversations in a relaxed setting. Differentiates from transactional competitors.	Booth space, catering, 2-3 Octopus staff.	All 3 days.		

Live "Deal Diagnosis" Whiteboard Sessions	Host scheduled 20-min sessions where experts visually map out a project's financing structure on a whiteboard, tackling a common challenge.	Developers facing specific financing hurdles.	Positions Octopus as a thought leader and problem-solver. Generates high-intent leads. Creates shareable video content.	Whiteboard, camera for recording, 1-2 senior finance experts.	Schedule 2-3 sessions per day on the event app.		
The "Octopus 8" Networking Dinner	An exclusive, invitation-only dinner for 8 key individuals from target companies. Curated for dynamic conversation.	Top-tier, pre-vetted targets from our list.	Deepens relationships with high-priority contacts in a private, off-the-record setting.	Budget for a private dinner at a top local restaurant.	Evening of Day 1 or 2.		
Speed-Dating a Financier	Pre-bookable, 30-minute, 1-on-1 slots. No sales pitch—just their biggest financing question. Promoted via event app.	Time-poor C-levels and BD Directors.	Efficient lead qualification. Demonstrates our accessibility and speed of decision-making.	A dedicated meeting space at the booth, an online booking system.	Promote pre-event, execute daily.		
Social Media "Deal Wall"	A physical "Deal Wall" at the booth showcasing the types of projects we finance. Visitors "pin" their project location on a map.	All attendees, social media audience.	Visual, interactive booth engagement. Provides content for daily social posts ("We're seeing huge demand in Iberia!").	Print graphic, pins, social media manager.	All 3 days.		
By implementing this three-pronged strategy, you will attend Enlit Europe 2025 with a clear roadmap for who to meet, what to learn, and how to effectively market Octopus Energy Finance, ensuring a productive and high-impact presence. Good luck
